Sri Chaitanya High School
SSC (X) 579/600 2021-2022

SKILLS

Languages	Python, Java , Javascript
Web	HTML, CSS, Bootstrap, React js
Concepts	Object Oriented Programming , Data Structures and Algorithms,
Developer tools	Visual Studio Code , Github
Version control	Git

PROJECTS

CareerNest (jobportal App)

- Developed a React.js Job Application with API integration, featuring a secure login flow where user details are linked to registered email IDs.
- Built a Jobs Portal module that displays job listings through API calls, allowing users to browse available opportunities.
- Implemented a skill- and job-based search functionality enabling users to quickly find relevant jobs. ([Try it here](#))

FocusFlow (Productivity Management Web App)

- Designed and developed a productivity-focused web application to help users manage daily tasks and improve focus.
 - Implemented task creation, editing, and completion tracking using HTML, CSS, and JavaScript.
 - Built a simple and user-friendly interface so users can organize tasks easily and track progress.
- Used local storage to store tasks and maintain data even after refreshing the browser.

CERTIFICATIONS

- NPTEL – Programming in Java IIT Kharagpur
97— Gold Medal

ACHIEVEMENTS

- solved 60+ problems in Leetcode

- Participated in Technova, a college-level hackathon, contributing to problem-solving and project development in a competitive environment.

SOFT SKILLS

- Communication: Able to present ideas clearly in discussions and deliver presentations to different audiences.
- Problem Solving: Analyze technical problems and find logical solutions while working on programming tasks and projects.
- Team Collaboration: Work effectively with team members during academic projects and technical events.
